Proof of Identification Requirements

All Yuma County Sheriff's Office (YCSO) Local Record Check forms submitted for processing via U.S. mail or electronic mail **must** include a **notarized** copy of the applicant's picture identification **and** their original signature (see SAMPLE A).

Forms received without the required proof of identification will be returned to the applicant without processing.

NOTE: The following information is derived from the Arizona Notary Public Reference Manual published by the Department of State, Office of the Secretary of State (October 2019) and is provided as a courtesy.

Copy Certifications A.R.S. § 41-311(3)

DEFINITION: A copy certification is a notarial act in which the notary certifies that a photocopy of an original document was made that is neither a public record nor publicly recordable. **The notary must have access to a copy machine and cannot use a photocopy provided by the requestor.**

Copy Certification Checklist

- If the notary does not have access to a copy machine the notary must not perform the copy certification.
- If the notary has access to a copy machine, they must verify the document presented is an original document. A copy certification cannot be performed on copies of a document or a certified copy. If the document presented is not an original, the notary must refuse the copy certification.
- The notary confirms that the original document presented is not a public record nor is it publicly recordable. If the document presented is a public record or is publicly recordable, the notary must refuse the notarization as a copy certification.
- The notary fills out the journal with the requestor's satisfactory evidence presented.
- If a credible person is used, he or she must be placed under oath and swear or affirm that the signer has the identity claimed.
- The requestor signs the notary's journal.
- If a credible person is used, the credible person also signs the notary journal.
- The notary copies the document.
- The notary writes or types, on the face of each copy, the notarial language from the sample below. **(SAMPLE A)**
- The notary completes the notarial certificates.
- The notary signs the notarial certificates.
- The notary affixes his or her notary seal. The seal generally is affixed to the left of the signature [A.R.S. § 41-311(3)].
- If an attach certificate is necessary please see page 2 for required elements and attached example **(SAMPLE B)**.

When to Attach a Certificate

A notary may use an additional sheet of paper to attach the notarial certificate to a document if there is no room left on the document.

If the notary attaches a certificate, the notary should title the page with the words “Notarial Acknowledgement”, “Notarial Jurat”, or “Copy Certification” (**see SAMPLE B**).

In order to prevent someone from affixing the attach certificate it to a different document, the notary must also describe the attached document on the page containing the notarial certificate in as great of detail as possible.

The description must include at a minimum:

- Type/Title of document
- Document date
- Number of pages attached
- Any additional signers other than those listed in the notarial certificate.

The office also recommends that document pages be numbered, such as “1 of 1” or “1 of 2,” etc.
